

## 5th Annual CANstruction Design Competition

Bring the whole family to see this incredible, edible design competition! This year, 21 design teams, including student teams from elementary to college level, will compete and build huge sculptures out of canned food. Designs are judged, with pictures of the winning designs submitted to the national CANstruction photo competition. The cans are then donated to the Food Bank of Northern Nevada to help feed more than 58,000 hungry children, seniors and working families in our region.

Teams include: Mendive Middle School; Hunter Lake Elementary; Girl Scout Troop #345; Carson High School AutoCad (4 teams); TMCC (4 teams); Churchill County High School; Caughlin Ranch Elementary School; The Glenn Group; Sierra Pacific Power Company; HDR Architecture, Inc.; Blakely, Johnson, and Ghusn, Inc.; Hershenow + Klippenstein Architects; HMC Architects and the Food Bank of Northern Nevada.

This amazing annual event will be hosted by the American Institute of Architects and the Food Bank of Northern Nevada. Sponsors include: Larry Macias, AIA; Charles Schwab Bank; Fred Graham, AIA; Save Mart Supermarkets and Truckee Meadows Community College.

What: 5<sup>th</sup> Annual CANstruction Design Competition

When: April 23-26, 2008

Where: TMCC Student Center, Red Mountain Building

Admission: One can of food per person

We need your help to make CANstruction a success! Our student teams need sponsors to help them cover the costs of their building materials. Each team needs \$1,000 in sponsorships. If you are interested in sponsoring our young regional talent, please contact Doris Phelps at (775) 331-3663 or [dphelps@fbnn.org](mailto:dphelps@fbnn.org) for more information.
